Johnson Memorial Hospital
www.seedsofkindess.org

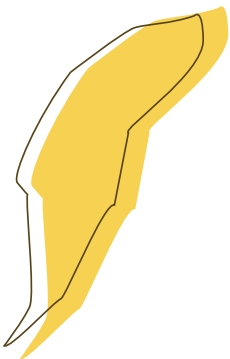

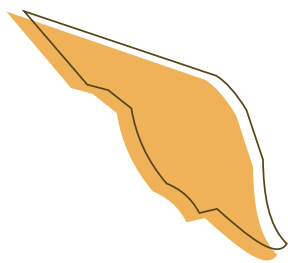

Seeds of Kindness began thanks to the generosity and personal experience of a local Somers, Connecticut family wanting to make a difference in the lives of patients being treated for cancer.

By purchasing Seeds of Kindness Premium Black Oil Sunflower Seeds, please know you are making an investment in the life of a person being treated with cancer.

Proceeds from this worthwhile endeavor benefit the Johnson Memorial Cancer Center and its Patient Assistance Fund which provides monetary support to qualifying patients undergoing cancer treatment. It is our hope to alleviate some financial burdens such as co-pays, deductibles, transportation costs, and grocery, pharmacy and fuel expenses.
